

Tusk Removable Half Windshield: 2024+ XP 1000

Part Number: 1868600023

Thanks for your purchase of the Tusk Removable Half Windshield. This windshield is made to provide additional riding comfort while still allowing air flow to keep the cab clear of swirling dust or fogging moisture. Please take note of the information and instructions below to get the most out of your Tusk Windshield.

Assembly: *Before you throw any packaging away, make sure you received all of the necessary hardware*

Hardware:	QTY:
Polycarb Windshield	1
Tusk Velcro Strap	2
Bulb Trim	56.5"

Vehicle Fitment:	
RZR XP 1000	2024+
RZR XP 4 1000	2024+

Note: All trim may need to be trimmed to fit as needed.

Polycarb Windshield

Tusk Velcro Strap

Bulb Trim

Installation Instructions:

1. Set the **POLYCARB WINDSHIELD** on a flat clean surface. Make sure your work surface is very clean and free from any dirt or contamination or you may scratch the window. Place so that the folded edge is up. Remove the protective coating off of both sides of the polycarb. Stick the **56.5" BULB TRIM** onto the edges and bottom of the window. The bulb should face down. This will contact the inside of the hood when installed to prevent vibration noises. Use heavy duty scissors or cutters to trim to length if needed. **FIG 1**
2. Set the windshield onto the roll cage and let slide down the A-pillars until the Bulb Trim contacts the bottom underneath the hood.
3. With the Bulb Trim installed, locate the **two TUSK VELCRO STRAPS**. Use the straps to attach the windshield to the frame as shown in **FIG 2, 3, 4.**
